For the same reason, the University reserves the right to waive any minor irregularity in a proposal.

I. **IRREVOCABILITY OF PROPOSALS:**

Proposers must clearly indicate each and every section that is deemed to be confidential, proprietary or a trade secret (it is NOT sufficient to preface your entire proposal with a proprietary statement).

N. **MINORITY BUSINESS ENTERPRISE NOTICE:**

Minority business enterprises are encouraged to respond to this solicitation. As well, Proposers are encouraged to include Minority Business Enterprise Firms as part of their consulting team.

O. **ASSISTANCE IN DRAFTING SPECIFICATIONS:**
Under Article 40A, § 3-110, Annotated Code of Maryland, a firm who employs an individual who assists a state agency in drafting specifications for an invitation for bid and/or a request for proposal for a procurement may not submit a bid or proposal for the procurement or assist or represent another person, directly or indirectly, who is submitting a bid or proposal for that procurement. If a firm has any questions regarding the applicability of this provision of the State Ethics Law, contact the State Ethics Commission, Toll Free phone number 877-669-6085 or see the website www.ethics.gov.state.md.us. The selected Proposer (“Consultant”) shall be solely responsible for all services as required by this RFP. The use of a subcontractor(s) does not relieve the Consultant of liability. UMBC will consider proposals that reflect primary and secondary service providers, or prime/subcontractor relationship. However, there should be proof of ability of the primary to manage a subcontractor and successfully coordinate the delivery of quality service and support in a timely manner.

P. **CONTRACT AGREEMENT:** The contract to be entered into as a result of this RFP (the “Contract”) shall be by and between the Proposer as consultant and UMBC in the form provided in Attachment B of this RFP. By submitting an offer, the Proposer warrants that they have reviewed the contract in Attachment B and will execute this contract upon request by UMBC. Proposers must understand and acknowledge that UMBC, as an agency of the State of Maryland, cannot indemnify the Contractor, submit to binding arbitration, or agree to pay the Contractor’s attorney’s fee.

The Contract to be entered into as a result of this RFP (the “Contract”) shall be by and between the Proposer as consultant and the University and shall consist of (1) the terms, conditions and specifications of this RFP and any appendices, amendments, additions or changes thereto; (2) the Standard Contract found in Attachment B, (3) the University purchase order; and (4) the Proposer’s response to the RFP and any amendments or changes thereto.

Other University System of Maryland institutions not specifically named in this solicitation document may participate in the contract resulting from this solicitation under the same pricing, terms and conditions of the awarded contract.

Q. **ORDER OF PRECEDENCE:**

The contract between the parties will be embodied in the contract documents, which will consist of those items named in P. above, listed in their order of precedence. Modifications to the Order of Precedence of those items will not be accepted in order to protect the University against obscure, unrecognized conflicts between the solicitation and a Proposer’s proposal. In the event of a conflict, the terms of the University Contract shall prevail.

R. **ACCEPTANCE OF TERMS AND CONDITIONS:**

By submitting a proposal in response to this RFP, a Proposer shall be deemed to have accepted all the terms, conditions, and requirements set forth in this RFP.
S. **PAYMENT BY ELECTRONIC FUNDS TRANSFER (EFT):**

By submitting a response to this solicitation, the Proposer agrees to accept payments by electronic funds transfer unless the State Comptroller’s Office grants an exemption. The selected Proposer shall register using the COT/GAD X-10 Vendor Electronic Funds (“EFT”) Registration Request Form. Any request for exemption shall be submitted to the State Comptroller’s Office for approval at the address specified on the COT/GAD X-10 form and shall include the business identification information as stated on the form and include the reason for the exemption. The COT/GAD X-10 form can be downloaded at: [http://compnet.comp.state.md.us/gad/pdf/GADX-10.pdf](http://compnet.comp.state.md.us/gad/pdf/GADX-10.pdf)

T. **PAYMENT:**

The State of Maryland usually provides payments on a net 30-day basis for UMBC approved invoices. Payment provisions shall be in arrears, with late payment and interest calculated as provided by Maryland law. For purposes of determining whether a prompt-payment discount, if applicable, may be taken by UMBC, the starting date of such reckoning period shall be the later of the date of a properly executed invoice or the date of completion of service and/or delivery of product.

U. **ACCESS TO CONSULTANT RECORDS FOR QUALITY ASSURANCE AND AUDITING PURPOSES:**

The Consultant and its principal subcontractors must provide access to pertinent records by University personnel or its representatives (including internal auditors, external auditors’ representatives, or agents) to provide quality assurance and auditing.

V. **PROPOSER’S RESPONSIBILITY:**

Proposers are advised to read the requirements very carefully to ensure that each requirement is understood. If in doubt, develop and submit applicable questions, in writing to the contact at the Issuing Office per C. above. An Proposer's misinterpretation of requirements shall not relieve the Proposer of responsibility to accurately address the requirements of the RFP or to perform the contract, if awarded.

W. **MULTIPLE PROPOSALS:**

Proposers may not submit more than one proposal.

X. **RFP RESPONSE MATERIALS:**

All written materials submitted in response to this RFP become the property of UMBC and may be appended to any formal documentation, which would further define or expand the contractual relationship between UMBC and the successful vendor(s).
Y. **PROCUREMENT REGULATIONS:**

This solicitation shall be conducted in accordance with University System of Maryland Procurement Policies and Procedures; the procurement method is Competitive Sealed Proposals. The text of the Policies and Procedures is available at www.USMD.edu/Leadership/BoardofRegents/Bylaws/SectionVIII/.

Z. **ARREARAGES:**

By submitting a response to this solicitation, a vendor shall be deemed to represent that it is not in arrears in the payment of any obligation due and owing the State of Maryland, including the payment of taxes and employee benefits and that it shall not become so in arrears during the term of the contract if selected for contract award.

AA. **BID/PROPOSAL AFFIDAVIT:**

The Bid/Proposal Affidavit included in this package (see Attachment A and Loose Forms Package for this form) must be executed by each responding proposer and submitted with the proposer's technical proposal.

BB. **JOINT VENTURE PROPOSERS:**

If the Proposer is a joint venture firm, the Proposer must provide all identification information for all parties and all requirements for all parties (i.e., licenses, insurance, etc.) as requested. As part of the initial technical proposal submission, the proposer must identify the percentage partnership for each joint venture party, the responsibilities of each joint venture party with respect to the scope of services/work inclusive of the requirements for each entity based on such services as described in this RFP document.

   NOTE: If the selected Consultant is a joint venture firm, all joint venture parties will be held responsible for the contract obligations separately and severally.

CC. **ADDENDUM**

Any addendum/amendments to the solicitation must be acknowledged by persons and entities known to have been issued, or otherwise to have received the solicitation. An Acknowledgement of Addendum form is provided in Attachment A and is to be submitted accordingly with the Initial Technical Proposal.

DD. **INCURRED EXPENSES:**

The University will not be responsible for any costs incurred by any vendor/firm in preparation and submittal of a proposal.
EE.  **MARYLAND PUBLIC ETHICS LAW, TITLE 15**

The Maryland Public Ethics Law prohibits, among other things: State employees or officials (and in some cases, former employees) and businesses in which such an individual is employed or holds a financial interest from (i) submitting a bid or proposal, (ii) negotiating a contract, and (iii) entering into a contract with the governmental unit with which the individual is affiliated per the Maryland Code, State Government Article, SS 15-502.

If the proposer has any questions concerning application of the State Ethics Law to the proposer's participation in this procurement, it is incumbent upon the bidder/offeror to see advise from the State Ethics Commission: John O'Donnell, State Ethics Commission, 300 E. Joppa Road, Suite 301, Towson, Maryland 21286, 410-321-3626.

The procurement officer may refer any issue raised by a bid or proposal to the State Ethics Commission. The procurement officer may require the proposer to obtain advice from the State Ethics Commission and may reject a bid or proposal that would result in a violation of the Ethics Law. The resulting contract is cancelable in the event of a violation of the Maryland Public Ethics Law by the vendor or any State of Maryland employee in connection with this procurement.

FF.  **USE OF AFFILIATES TO AVOID TAXATION ON INCOME FROM STATE CONTRACTS**

Consultant may not for any period during the Contract term, seek to reduce the amount of Consultant’s income subject to Maryland income tax by payments made to an affiliated entity or an affiliate’s agent for the right to use trademarks, trade names, or other intangible property associated with Consultant. Consultant agrees that during the course of this Contract it shall not make any such royalty or similar payments to any affiliated company; and if any such royalty or similar payments are made, Consultant and the affiliated company shall file separate Maryland income tax returns and pay their respective Maryland income taxes in such a manner that Consultant does not claim a deduction against Maryland income tax for such payments, and the affiliated company receiving the royalty or similar payment files Maryland income tax returns and pays Maryland tax, under a formula that reasonably apportions the income of the affiliated company among the states, including Maryland, in which the Consultant does business. Consultant agrees that it is authorized to bind its affiliated entities to the terms hereof.”
GG. **INTERPRETATION OF RFP:**

If the Proposer finds any perceived conflict, error, omission or discrepancy on or between the specifications, attachments, or any of the Contract documents, the Proposer may submit a written request to the Issuing Office for an interpretation or clarification before the deadline for questions and inquiries.

Any interpretation of the Contract documents made by any party other than the Procurement Officer, or in any manner other than a written response, is not binding and the Proposer may not rely upon any such interpretation. The Proposer may not, at any time after the execution of the Contract, be compensated for a claim alleging insufficient data, incomplete Contract documents, or incorrectly assumed conditions regarding the nature or character of the work, if no request for interpretation was made by the Proposer prior to the deadline for questions.

HH. **DEBRIEFING OF UNSUCCESSFUL PROPOSERS:**

A debriefing of an unsuccessful Proposer shall be conducted upon written request submitted to the Procurement Officer within 10 days after the Proposer knew or should have known its proposal was unsuccessful. Debriefings shall be conducted at the earliest feasible time.

The debriefing shall be limited to discussion of the unsuccessful Proposer's proposal only and shall NOT include discussion of a competing Proposer's proposal. The debriefing may include information on areas in which the unsuccessful proposer's proposal was deemed weak or insufficient. The debriefing may NOT include discussion or dissemination of the thoughts, notes or ranking from an individual evaluation committee member. A summarization of the procurement officer’s rationale for the selection may be given.

1. **TECHNICAL EVALUATION:**

1.1. **Overview:** Proposals are evaluated to determine which proposal is most advantageous to the University. The process involves applying the evaluation criteria contained in the RFP and ranking the proposals from most to least advantageous. If used in the evaluation process, numerical point scores will be useful guides but will not be the sole factor in determining the award. The decision for the award will not be made solely by the raw scores themselves, but rather by the strengths, weaknesses, advantages, and deficiencies that the scores represent.

The criteria that will be used by the committee for the technical evaluation of the proposals for this specific procurement are listed below. Each committee member will evaluate the proposals on each major criterion.

Minor irregularities in proposals, which are immaterial or inconsequential in nature, may be waived wherever it is determined to be in the University’s best interest.

1.2 **Initial Technical Evaluation**

An evaluation of the Technical Proposals will be conducted by the University’s Evaluation and Selection Committee. The technical criteria is as follows excepting the firm and key personnel references which will be considered in the second phase technical evaluation as noted below:

1. Key Personnel
2. Profile of Proposer
3. Firm Experience
4. Special/Unique Qualifications

Firms will be ranked. Those proposals not considered "to be reasonably susceptible of being selected for award" may be rejected after the initial technical evaluation and will not progress further in the procurement. A short list will be developed based on the initial technical evaluation results. Upon completion of the initial technical evaluation, all proposers will be notified as to the results of the initial technical evaluation of his/her firm's technical proposal. Only shortlisted firms will advance in the procurement process.
1.3 **Second Phase Technical Evaluation**

Following the Interview sessions held with the short listed firms, a **Second Phase Technical Evaluation** will be conducted. The technical criteria will include the items noted in 1.2 above along with (i) the Proposer’s presentation of their interpretation and understanding of the services required and (ii) the references for the Key Personnel incorporated into the appropriate criteria.

In the Second Technical Evaluation, all information provided by the Proposer in the Technical Proposal will be re-evaluated based on the discussions with the short listed firms at the Interview session along with the additional information noted above.

1.4 **Final Technical Evaluation:**

The University will establish a ranking of technical proposals from highest to lowest. If a numerical point scoring system is utilized, scores will be normalized, that is the highest ranked proposal will receive 100% of the available technical score with subsequently lower ranked proposals receiving proportionately lower scores. A second shortlist may result from this evaluation. Upon completion of the second phase technical evaluation, all proposers will be notified as to the results of the second phase technical evaluation of his/her firm's technical proposal.

2. **Price Proposal Evaluation:**

Upon completion of the Second Phase Technical Evaluation, **only** those firms whose technical proposals remain short listed will be requested via an addendum to submit a **Price Proposal.**

2.1 **Price Evaluation**

Price Proposals will not be opened publicly. Price Proposals will be evaluated based on the quoted fixed fee for the term of the contract.

2.2 **Final Price Evaluation:**

The University will establish a financial ranking of the proposals from lowest to highest total offers. If a numerical rating is utilized, the lowest evaluated total offer will receive 100% of the points awarded to the financial portion with subsequently higher quotes receiving proportionally lower points.
3. **Discussions.** The University reserves the right to recommend a Proposer for contract award based upon the Proposer's technical proposal and price proposal without further discussions. However, should the Committee find that further discussion would benefit the University, the Committee shall recommend such discussions to the Procurement Officer. Should the Procurement Officer determine that further discussion would be in the best interest of the University, the Procurement Officer shall establish procedures and schedules for conducting discussions and will notify responsible Proposer(s).

4. **Best and Final Offers.** When in the best interest of the University, the Committee may recommend and the Procurement Officer may permit qualified Proposers to revise their proposals by submitting "Best and Final" offers either during the Technical Phase and/or the Price Proposal Phase of this procurement.

5. **Final Ranking and Selection**

Following evaluation of the technical proposals and the price proposals, the Evaluation and Selection Committee will make an initial overall ranking of the proposals and recommend to the Procurement Officer the award of the contract to the responsible Proposer whose proposal is determined to be the most advantageous to the University based on the results of the final technical and financial evaluation in accordance with the University System of Maryland Procurement Policies and Procedures. Technical merit will have a greater weight than financial in the final ranking.

Award may be made to the proposal with a higher technical ranking even if its cost proposal is not the lowest. The decision of the award of the contract will be made at the discretion of the Procurement Officer and will depend on the facts and circumstances of the procurement. The Procurement Officer retains the discretion to examine all factors to determine the award of the contract. The goal is to contract with the Contractor that provides the best overall value to the University.

The University may select one or more Contractors to further engage in negotiations, including terms of a contract and other issues to be incorporated into the contract. The University reserves the right to make an award with or without negotiations.

The University will pay all reasonable costs associated with this Contract that the Contractor has incurred up to the date of termination and all reasonable costs associated with termination of the Contract. However, the Contractor shall not be reimbursed for any anticipatory profits that have not been earned up to the date of termination. Termination hereunder, including the determination of the rights and obligations of the parties, shall be governed by the provisions of USM Procurement Policies and Procedures.

22. **TERMINATION OF MULTIYEAR CONTRACTS:** If the General Assembly fails to appropriate funds or if funds are not otherwise made available for continued performance for any fiscal period of this Contract succeeding the first fiscal period, this Contract shall be canceled automatically as of the beginning of the fiscal year for which funds were not appropriated or otherwise made available; provided, however, that this will not affect either the State’s rights or the Contractor’s rights under any termination clause in the Contract. The effect of termination of the Contract hereunder will be to discharge both the Contractor and the State from future performance of the Contract but not from their rights and obligations existing at the time of termination. The Contractor shall be reimbursed for the reasonable value of any non-recurring costs incurred but not amortized in the price of the Contract. The State shall notify the Contractor as soon as it has knowledge that funds may not be available for the continuation of this Contract for each succeeding fiscal period beyond the first.

31. **AUDIT:** The University reserves the right to request an independent review of the Contractor’s financial operations and overall contract compliance (“Review”).
