RE: UMBC PAHF II – Performance Spaces – RFP # BC-20889-Q
ADDENDUM # 6

The following amends the above referenced RFP Documents. Receipt of this addendum must be acknowledged by completing the enclosed "Acknowledgement of Receipt of Addenda" Form and submitting it along with the Technical Proposal you return to the University.

The due date and time for the Technical & Price Proposals to be submitted to the University remains as THURSDAY AUGUST 22, 2013 by 2:00 p.m. to the issuing office.

A. The following questions have been submitted to the University for a response:

1. QUESTION: Drawing AV-2.31 shows a need for 2 HDMI input cards and 1 SDI input card, but the Excel sheet lists 2 SDI, no HDMI, and an additional DMC-C. Should our quote reflect information based on the drawing or the Excel sheet?

   ANSWER: Drawing and Equipment Schedule concur in requiring two SDI inputs (#6 and #7). Excel lists six DMC-C-DSP where actual requirement is four DMC-C-DSP and two DMC-HD-DSP (HDMI inputs) plus the noted SDI inputs.

2. QUESTION: The Atlona AT-HD4-V110SR has been discontinued and has been replaced by AT-HDXT-RSNET & AT-HDRX-RSNET. Is this okay?

   ANSWER: The substitution is approved.
3. QUESTION: Most of the components are included in the Video Components section of the Equipment List for the Pricing Proposal. But there is some equipment in the system not included in that section, for example the video and data patch panels and HDMI cables. If we only plan to bid on the video system, would you only like us to fill out the section for the Video Components with the assumption that someone else will supply the patchbays? Or would you like us to include pricing for the necessary patchbays and HDMI cables?

ANSWER: You need to bid the entire package. If you need to subcontract out what work you can’t perform/provide, then that’s what the price would have to reflect.
