

Dissertation Awards
Deadlines: March 1, 2002 - August 31, 2002

Source: Community of Science

Roy J. Shlemon Scholarship Awards

Geological Society of America (GSA)

Deadline: March 01, 2002

Amount: \$500-\$1000

Abstract: Roy J. Shlemon Scholarship Awards are given to graduate students with the best research proposals within the broad field of engineering geology. The primary role of this awards program is to provide partial support of master's and doctoral thesis research in engineering geology.

William James Awards

Council on Spiritual Practices (CSP)

Deadline: May 01, 2002

Amount: \$500- \$1,500

Abstract: The Council on Spiritual Practices offers the William James Awards for masters' theses and doctoral dissertations focusing on empirical studies of primary religious experience and its consequences. The awards are offered to encourage the scientific investigation of the phenomenology, determinants, and facilitation of primary religious or spiritual experiences. Equally of interest are their consequences, individual and social. Primary religious experiences are those involving direct perception of the sacred, also called unitive, peak, and mystical experiences. Finalists will be selected and asked to submit their full thesis or dissertation proposal for further consideration. Award funds will be released contingent on departmental approval of the proposal.

William James Awards Committee

<http://www.csp.org/WmJamesAwards.html>

Malcolm H. Kerr Dissertation Awards

Middle East Studies Association of North America (MESA)

Deadline: July 01, 2002

Amount: \$500

Abstract: The Middle East Studies Association of North America (MESA) Dissertation Awards were established in 1982 to recognize

exceptional achievement in research and writing for or of dissertations in Middle East studies. In 1984 the award was named for Malcolm H. Kerr to honor his significant contributions to Middle East studies. Awards are given in two categories: social sciences and humanities.

Colgate-Palmolive/SOT Awards for Student Research Training in Alternative Methods

Society of Toxicology (SOT)

Deadline: March 01, 2002

Amount: \$2,500

Abstract: The purpose of the Colgate-Palmolive/Society of Toxicology (SOT) Awards for Student Research Training in Alternative Methods is to enhance student research training using in vitro methods or alternative techniques to reduce, replace or refine use of animals in toxicological research. The award is available for graduate students or institutions.

Society of Toxicology

Mailto: sothq@toxicology.org

<http://www.toxicology.org/Information/AwardsFellowships/awarddescript.html>

Doctoral Dissertation Awards

State Farm Companies Foundation

Deadline: March 31, 2002

Amount: \$13,000

Abstract:

The State Farm Companies Foundation provides awards for doctoral candidates whose

dissertation topics relate to insurance and risk management or business. The award is designed to stimulate research and development of new knowledge in the fields of insurance and business, and to increase the number of qualified teachers of insurance and business at U.S. colleges and universities. Awards are given in the two categories of (1) business and (2) insurance and risk management.

Outstanding Graduate Research Awards in Pharmaceutical Technologies

American Association of Pharmaceutical Scientists (AAPS)

Deadline: May 07, 2002

Amount: \$2,000

Abstract: The American Association of Pharmaceutical Scientists (AAPS) and EM Industries are pleased to announce the Outstanding Graduate Research Awards in Pharmaceutical Technologies to be held at the AAPS annual meeting and exposition. These awards are designed to stimulate and encourage graduate students to prepare their research for publication in Pharmaceutical Development and Technology, and present their research at the AAPS annual meeting and exposition.

Doctoral Dissertation Awards

National Tax Association

Deadline: June 01, 2002

Amount: \$1000 - \$2000

Abstract: The National Tax Association awards an annual prize for the doctoral dissertation that makes the most significant contribution to the field of government finance and taxation. Papers based on the dissertations will be presented at the Annual National Tax Association Conference in Austin, Texas, and be published in the conference proceedings.

Overseas Research Students Awards Scheme (ORS)

Universities UK

Deadline: April 27, 2002

Amount: Check web site

Abstract: The Overseas Research Students Awards Scheme (ORS) grants awards on a competitive basis to overseas postgraduate students of outstanding merit and research potential. The award scheme is administered by Universities UK on behalf of the Department for Education and Employment (DfEE), and is reimbursed by the DfEE through the United Kingdom's funding councils.

Ph.D. Thesis Research Awards

African Economic Research Consortium (AERC)

Deadline: April 01, 2002

Amount: \$15,000

Abstract: Two basic premises lie behind the establishment of the African Economic Research Consortium (AERC) in 1988. First, improvements in economic policy are a necessary condition for sustained development. Second, improvements in economic policymaking depend to a significant degree upon locally-based research conducted largely by highly qualified and motivated resident national economists.

Helen M. Robinson Award

International Reading Association

Deadline: June 15, 2002

Amount: \$500

Abstract: The International Reading Association seeks to promote high levels of literacy for all by improving the quality of reading instruction through studying the reading process and teaching techniques; serving as a clearinghouse for the dissemination of reading research through conferences, journals, and other publications; and actively encouraging the lifetime reading habit.

Institute for Scientific Information (ISI) Doctoral Dissertation Proposal Scholarship

American Society for Information Science and Technology (ASIST)

Deadline: July 01, 2002

Amount: \$1,500 - \$2,000

Abstract: The purpose of this scholarship is to foster research in information science by encouraging and assisting doctoral students in the field with their dissertation research. Because

of the limits proposed by timing considerations, awards may be made for research underway (e.g., a student who begins research in the fall may apply for support for expenses incurred from the fall until the time the award is made).

Contact:

American Society for Information Science and Technology

Mailto: asis@asis.org

http://www.asis.org/awards/2001_awards.html

Outstanding Doctoral Thesis Research in Beam Physics Award

American Physical Society (APS)

Deadline: July 02, 2002

Amount: \$2,500 - \$3,000

Abstract: The Award for Outstanding Doctoral Thesis in Beam Physics recognizes doctoral thesis research of outstanding quality and achievement in beam physics and engineering. The recipient will be invited to present the work as an invited talk in an appropriate session of the annual meeting.

Minigrants

New Jersey Historical Commission

Deadline; Varies. Proposals are reviewed approximately the third week of the month in January, March, May, August, October, and December.

Amount: \$3,000

Abstract: Under this program, the sponsor seeks to advance the public knowledge of New Jersey history. The New Jersey Historical Commission awards minigrants to assist relatively small and inexpensive projects such as research leading to articles, books, dissertations, media programs, websites, and publications in a variety of media.

Clara Mayo Grants

Society for the Psychological Study of Social Issues (SPSSI)

Deadline: March 31, 2002

Amount: \$1,000

Abstract: Four awards are available to support master's theses or pre-dissertation research on aspects of sexism, racism, or prejudice, with preference given to students enrolled in a terminal master's program. Studies of the application of theory or the design of interventions or treatments to address these problems are welcome. Proposals that include a college or university agreement to match the amount requested will be favored, but proposals without matching funds will also be considered.

Eastern Europe and the Newly Independent States - Dissertation Enhancement Awards NSF 00-138

National Science Foundation

Deadline: Continuous

Amount: Unknown

Abstract: Recent years have brought unprecedented opportunities for expanded relationships between the science and engineering communities of the United States and those of Eastern Europe and the Newly Independent States (NIS), and for access to research sites and data sources in the region. Cooperation with NIS and Eastern and Central European countries can provide simultaneously the long-term benefits to the United States of reinforcing the science and engineering infrastructure of the region and the more immediate benefits of joint research and education projects.

Japan - Medium and Long-Term Visits NSF 00-138

National Science Foundation

Deadline: September 01, 2002

Amount: Unknown

Abstract: The United States and Japan cooperate bilaterally and internationally in a wide range of scientific and technological fields. Cooperation in basic research has been a cornerstone of the relationship for more than thirty years. To promote cooperation, the National Science Foundation (NSF) encourages the development of cooperative relationships through joint research and bilateral seminars; long-term research in Japan, especially for investigators in the early stages of their careers; and programs involving centers of excellence in both countries.

The Americas - Joint Seminars and Workshops NSF 00-138

National Science Foundation

Deadline: May 01, 2002

Amount: Unknown

Abstract: The objectives of activities in the Americas include the following:

- To make use of unique research environments and facilities that offer new opportunities to the U.S. scientific and engineering research communities

- To provide young scientists with an international experience that will be of value to their future work

- To stimulate new forms of cooperation through the use of innovative communications technologies which are used increasingly throughout the hemisphere.

Research Library Program

Delmas Foundation, Gladys Kriebel

Deadline: Continuous

Amount: Unknown

Abstract: The Research Library Program concentrates primarily in those areas of its founders' interests and aims to be fully complementary to the foundation's other program areas (i.e., humanities, scholarship, performing arts, and Venetian history and culture). The overall objective of the Research Library Program is to improve the ability of research libraries to serve the needs of scholarship in the humanities and the performing arts, and to help make their resources more widely accessible to scholars and the general public.

Personnel Security Research Program

United States Department of Defense (DOD)

Deadline: Continuous

Amount: \$30,000

Abstract:

The Security Research Center announces a program to help fund (through the Office of Naval Research) research addressing issues pertinent to personnel security. The areas covered by this funding program include

- trust and betrayal,
- automated monitoring and financial or credit,
- continuing evaluation and aftercare,
- utility analysis, and
- vetting systems.

Grants for Improving Doctoral Dissertation Research - Archaeology - NSF 01-113

National Science Foundation (NSF)

Deadline: Continuous.

Amount: \$12,000

Abstract: The National Science Foundation's (NSF's) Division of Behavioral and Cognitive Sciences (BCS) awards grants to doctoral students to improve the quality of dissertation research. These grants provide funds for items not normally available through the student's university. These grants also allow doctoral students to undertake significant data-gathering projects and to conduct field research in settings away from their home campus that would not otherwise be possible.

Research Studentships in the History of Medicine

Wellcome Trust

Deadline: April 01, 2002

Amount: Master's studentships are given for one year, doctoral studentships for up to three years.

Abstract: The Wellcome Trust supports master's awards and doctoral studentships for study in the history of medicine. The studentships enable young scholars to undertake basic training in

research and methods through a one-year master's course in the history of medicine followed by up to three years of full-time research leading to a doctoral degree at a university in the United Kingdom, the Republic of Ireland, or the Netherlands. Strong preference is given to applicants intending to make a long-term academic career in the subject.

Nursing Research Fellowship

Heart and Stroke Foundation of Canada (HSFC)

Deadline: March 15, 2002

Amount: \$25,000-\$78,000

Abstract: The Nursing Research Fellowship is an in-training award for those undertaking graduate studies in some area of cardiovascular or cerebrovascular nursing. The primary purpose of the award is to provide funds for research training and study in the cardiovascular or cerebrovascular field. Purely clinical non-research or educational fellowships are not awarded.

National Research Service Awards for Individual Predoctoral Fellows - NINDS

Department of Health and Human Services (DHHS)

Deadline: April 05, 2002

Amount: \$16,500

Abstract: The National Institute of Neurological Disorders and Stroke (NINDS) focuses on research aimed at the improved diagnosis, treatment, and prevention of disorders of the nervous system. Responsibilities for research on neurological disorders and diseases include epidemiology, etiology, and pathogenesis; diagnosis, treatment, prevention, control, and rehabilitation as appropriate; and clinical trials. Included are disorders occurring primarily in youth (cerebral palsy, epilepsy, learning

disabilities), in adulthood (head and spinal cord injury, multiple sclerosis, brain tumors), and in old age (stroke, Huntington's disease, Parkinson's disease, dementia). The divisions in NINDS include Fundamental Neurosciences; Convulsive, Developmental, and Neuromuscular Disorders; Demyelinating, Atrophic, and Dementing Disorders; and Stroke and Trauma.

Predoctoral Research Training in Complementary and Alternative Medicine - NCCAM

Department of Health and Human Services (DHHS)

Deadline: April 05, 2002

Amount: \$15,060.

Abstract: The National Center for Complementary and Alternative Medicine (NCCAM) plans to provide predoctoral National Research Service Awards (NRSAs) to individuals for research training in specified areas of biomedical and behavioral research related to complementary and alternative medicine (CAM) to help ensure that highly trained scientists will be available in adequate numbers and in appropriate research areas and fields to meet the nation's health research needs. As such, this program is intended to provide a mechanism to train future generations of outstanding scientists committed to pursuing a research career in CAM.

National Research Service Awards for Individual Predoctoral Fellows - NIAAA

Department of Health and Human Services (DHHS)

Deadline: April 05, 2002

Amount: \$16,500

Abstract: The National Institute on Alcohol Abuse and Alcoholism (NIAAA) supports basic and applied research on the mechanisms of action of alcohol on biobehavioral processes (the effects of alcohol on the mind and body). Support is available for research in the

biochemical, physiologic, and behavioral mechanisms leading to pathologic drinking behavior; the clinical, behavioral, and epidemiological studies that will lead to more effective diagnoses, preventions, and treatments of alcoholism; the mediators of tissue injury; the genetics of alcoholism; the benefits or risks of moderate drinking; the children of alcoholics; alcohol-induced organ damage; alcohol metabolism; the relationship between peptide hormones and alcohol intake; neuroscience; preclinical medications development; alcohol-related behavior; special populations; diet and nutrition; family studies and genetic epidemiology; the influence of alcohol use in pregnancy over fetal or infant outcome; economic cost; youth and young adults; alcohol and aging; special populations; unintentional injuries; violence; AIDS; economic and socioeconomic issues; media and advertising issues; community-based studies; reliability and validity assessments; treatment effectiveness; alcohol abuse and nicotine use; pharmacotherapy; and injuries and trauma that are associated with alcoholism.

National Research Service Awards for Individual Predoctoral Fellows

Department of Health and Human Services (DHHS)

Deadline: April 05, 2002

Amount: \$16,500

Abstract:

The National Institute on Alcohol Abuse and Alcoholism (NIAAA), the National Institute on Deafness and Other Communication Disorders (NIDCD), the National Institute on Drug Abuse (NIDA), the National Institute of Mental Health (NIMH), and the National Institute of Neurological Disorders and Stroke (NINDS) of the National Institutes of Health (NIH) provide National Research Service Awards (NRSAs) to individuals for doctoral-level training. These institutes award NRSA individual predoctoral fellowships (F31) to promising applicants with the potential to become productive, independent investigators in the scientific mission areas of these institutes. This program will provide predoctoral training support for doctoral candidates that have successfully completed their comprehensive examinations or the equivalent by the time of award and will be performing dissertation research and training.

National Institute of Nursing Research National Research Service Award Individual Predoctoral Fellowships - NINR

Department of Health and Human Services (DHHS)

Deadline: April 05, 2002

Amount: The Congress of the United States enacted the National Research Service Act (NRSA) Program in 1974 to help ensure that highly trained scientists would be available in adequate numbers and in appropriate research areas to carry out the nation's biomedical and behavioral research agenda. Under this congressional authority, the National Institute of Nursing Research (NINR) awards NRSA Individual Predoctoral Fellowships (F31) to the most promising nursing applicants enrolled in doctoral programs. Up to five years of aggregate NRSA support may be provided. The proposed NRSA training must be within the scope of biomedical or behavioral research relevant to the NINR mission and must offer an opportunity for research training. Individuals are required to pursue their research training on a full-time basis, devoting at least 40 hours per week to the training program.

Ethnographic Research Training (ERT) - NSF 01-133

National Science Foundation (NSF)

Deadline: August 01, 2002

Amount: \$50,000

Abstract: The National Science Foundation (NSF) supports ethnographic research training in graduate schools. The goal is to provide field research experience for a large number of graduate students before their dissertation research. The Cultural Anthropology Program invites departments offering the Ph.D. in social-cultural anthropology to apply for these awards. The criteria for funding will be the scientific quality of the departmental training requirements as they promote the research capacity of social-cultural anthropology. Applications should explicitly show how scientific theory and methods are structured into the training experience. This normally involves a required sequence of courses for students benefiting from these funds, including theory, research design, ethnographic methods, and data analytic techniques.
