With about 700 signed entries with cross-references and recommended readings, the Encyclopedia of Diversity in Education will present research and statistics, case studies, and best practices, policies, and programs at pre- and postsecondary levels. Diversity is a worldwide phenomenon, and while most of the entries in the Encyclopedia will focus on the United States, diversity issues and developments in nations around the world, including the United States, are intricately connected. Consequently, to illuminate the many aspects of diversity, this volume will contain entries from different nations in the world. From A-to-Z, this Encyclopedia will cover the full spectrum of diversity issues, including race, class, gender, religion, language, exceptionality, and the global dimensions of diversity as they relate to education. This four-volume reference work will be the definitive reference for diversity issues in education in the United States and the world.
