

Voice Presentation – student use

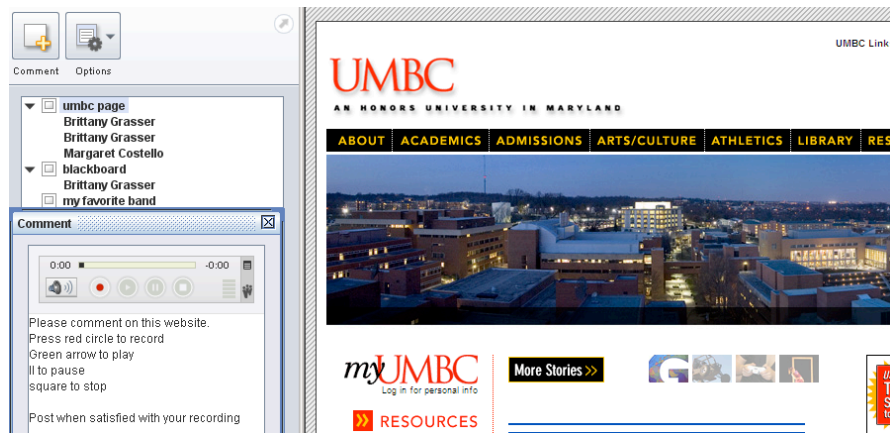

With Voice Presentation you can annotate a website/picture/slide with voice and text.

Go to your Blackboard Course

Teacher will tell where Voice Presentation is located – maybe with assignments or its own tab

Click on **enter Voice Presentation**

Click on **slide** – there may be text and/or audio –click on **green arrow** to playback then click on **comment** to respond

Click on red circle to record

Double lines to pause

Green arrow to play

Square to stop

After you record , click on green arrow to hear it – if you are satisfied with the recording then **post** it. To re-do, hit the red button again.

Once you post it, you cannot change it.

Playback from list of slides

- **Options – expand**
- **Highlight entry** you want to hear, click on **green arrow**
 - Check **continuous play** from options, plays rest of the entries
 - Check **play on click** to hear individual entries
