Prof. Antonio J. Plaza
HyperComp
University of Extremadura
Caceres
Spain

Dear Antonio,

I am delighted to appoint you as the Editor-in-Chief of the *IEEE Transaction on Geoscience and Remote Sensing* (TGRS) for the period Jan. 1, 2013 to Dec. 31, 2015 with the possibility of a two-year renewal. TGRS is the leading technical journal in the area of remote sensing. The Administrative Committee (AdCom) of the IEEE Geoscience and Remote Sensing formed a search committee to target candidates for this important position. Several outstanding candidates were considered from leading institutions in North America and Europe. After a thorough discussion and review, the AdCom voted to offer you the position. This demonstrates your exceptional standing in our community.

We have great confidence in you and believe that TGRS will be more successful than ever under your leadership. Congratulations and best wishes!

Sincerely,

Jón Atli Benediktsson
2011-2012 GRSS President
