**CURRENT CATALOG DESCRIPTION:**

This course examines various ways to portray quantitative and qualitative information using thematic maps. Emphasis is on data processing, map design and construction. The computer is used to aid in data processing and map development; however, no previous experience with computers is necessary. Prerequisite: GES 280 or permission of instructor

**PROPOSED CATALOG DESCRIPTION:**  no changes  change in description

This course examines various ways to portray quantitative and qualitative information using thematic maps. Emphasis is on data processing, map design and construction. The computer is used to aid in data processing and map development; however, no previous experience with computers is necessary. Prerequisite: GES 286 or permission of instructor

**RATIONALE FOR CHANGE:**

GES280 is no longer being taught because it has been replaced by GES286.
