CURRENT CATALOG DESCRIPTION:

This course is designed to discuss topics not associated directly with prehospital patient care. Topics include ambulance operations, medical incident command, rescue awareness, hazardous materials incidents and crime scene awareness.

PROPOSED CATALOG DESCRIPTION: no changes change in description

This course is designed to discuss topics not associated directly with prehospital patient care. Topics include ambulance operations, medical incident command, rescue awareness, hazardous materials incidents and crime scene awareness. ~~You must complete EHS 471,473,474 and 476 with a grade of C or better before taking this class. You must enroll in EHS 472, 475, 477 and 478 concurrently.~~

RATIONALE FOR CHANGE:

The State of Maryland is modifying the curriculum for training of Emergency Medical Technicians and Paramedics. The department has made changes to the sequencing of when the current core classes will be taught during the year in order to prepare the students to meet these new requirements.
