<p>Total number of credits required: 19</p> <p>Note: At least 9 credits in PSYC that will be applied towards fulfilling the requirements for the major must be earned at UMBC.</p>	<p>Total number of credits required: 19</p> <p>Note: At least 9 credits in PSYC that will be applied towards fulfilling the requirements for the major must be earned at UMBC.</p>

Rationale (see instructions):

a) What are the major departures from the current structure and why is the new structure preferable? *By adding an additional course (PSYC 365 Children with Disabilities) to the “Developmental Psychology” Domain, students will have greater flexibility in completing a course in this Domain. .*

b) What provisions will be made to accommodate current students if courses are discontinued?

Not applicable.

c) If there is a change in required credits, please provide a specific justification for that change.

No change in # of credits.
