Dear Antonio,

Thank you very much for the truly outstanding job you have done during my two-year GRSS Presidency as Education Director (2011-2012). The position of GRSS Education Director is traditionally very demanding but that has not stopped you from starting new and important initiatives. In particular, I would like to mention the first GRSS Remote Sensing Summer School was held this year in Munich in July as a two-day event. The summer school was very successful and well organized. Based on the excellent success of the first event, the GRSS will undoubtedly continue to organize summer schools on an annual basis.

Best wishes and thanks again,
