

The members of the President's Commission for Women thank you for your interest in UMBC.

Our Mission

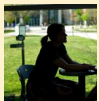

Our mission is to advance the study and consideration of issues that directly or indirectly concern women students, faculty and staff on the UMBC campus, and those issues that relate to equal access for women to the education and employment opportunities at UMBC. By enhancing communication across the campus and initiating programs and activities to remove continuing societal barriers to women, we will, in partnership with the President of UMBC, Dr. Freeman Hrabowski, highlight UMBC's commitment to women.

About this Brochure

In light of our mission, we have compiled a list of resources that we believe would be valuable to women on campus. These resources consist of student and university run programs that have a particular emphasis on women.

For More Information

For more information about these organizations, you may consult the UMBC Mentoring Resource List at the Women's Center website found at www.umbc.edu/womenscenter/resourcesandreferrals.html.

The complete list of student run organizations are at orgs.umbc.edu/. From this page, you may navigate to organizations in several different categories such as Academic/Departmental, Arts/Performance, Career/Professional, Cultural/Ethnic, Governance, Graduate Student Organizations, Greek Life, Hobbies, Honor Societies, Intellectual Sports, Media, Political, Religion/Spiritual, Service/Social Action, and Sports/Recreation. From this wide array of programs, the President's Commission for Women has selected a few organizations that may be of particular interest to women, and we are listing them in this brochure.
